

feature note:

Metrolight Smart EcoBOX™ Pole Mount Installation

Realize significant energy savings while maintaining your existing system with Metrolight's Smart EcoBOX™

Figures 1-3: Use of existing system; minimal impact on aesthetics of pole

Features & Benefits

- Greater energy savings due to customized dimming capabilities
- Weatherproof, rugged and IP-65 rated remote mounting box
- Designed for new and retrofit applications
- Cost effective solution - maintain the exiting system while realizing significant energy savings (average savings of between 45-70%)
- Reuse existing fixture bodies with minimal impact on aesthetics of the pole
- No impact on already approved and installed lighting design and as such on security or safety issues as they relate to lighting
- EcoBOX has 4 knockouts to allow for control integration - dimming up to 50%
- Maintain photometric design and fixture UL certification
- Mounting distance of up to 50 ft from the socket - can be placed at the bottom, middle or top of pole

Wiring Diagram

Applications

- Auto dealership lots
- Parking lots
- Gas stations
- Flood lights
- Street lights
- Areas where a remote ballast housing is required
